

This innovative American made float switch's translucent body allows for a quick visual confirmation of water presence. Drain Alert® is easy to install in the tightest spaces; no gluing or cutting required.

The Original
DRAIN ALERT®

DRAIN ALERT®

Drain Alert® is versatile, built for primary and auxiliary drain pan outlets. It is compact enough to fit in vertical and horizontal applications. The sensor comes with a 1/2" opening and no extra washer is needed to avoid premature cut off. A plenum wire model is also available for commercial building code requirements.

QUICKCLIP

The Quickclip safety switch control is designed to clip onto the side of metal auxiliary drain pans. Equipped with a magnetic float, the unit comes completely sealed with a factory pre-wired lead.

This switch has been designed to work in conjunction with water only. When the float rises, the circuit will break open and the system will shut down.

DRAIN ALERT® AND QUICKCLIP

FEATURES AND BENEFITS

- Made of durable impact resistant material
- Can be used on all 24 V systems
- Translucent body allows for a quick visual inspection of water presence
- Easy to install
- 2 year warranty
- Made in the USA
