

AmRad products come backed by over 80 years of quality, reliability and durability. These USA made capacitors have rust free brass terminals and are encapsulated in a thick non-PCB dielectric fluid to better reduce heat.

Exclusive  Distributor

USA MADE CAPACITORS

ADVANTAGES:

100% Guaranteed

- Made in the USA
 - Manufactured in Palm Coast, Florida
- 370/440 V single and dual capacitance
- 5 Year Warranty
- Individually tested and labeled with exact MFD rating at completion of manufacturing
- Filled with a thick non-PCB dielectric fluid to reduce heat
- Rust free all brass terminals
- UL/CSA Recognized
- OEM approved
- The ONLY motor-run capacitors with CPT®

THE ONLY TRUE COMPRESSOR PROTECTORS

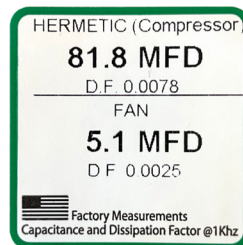

Use in conjunction with CPT® Fuse Wire on AmRad's universal hard-start kits to ensure the best compressor protection.

Compressor Protector Terminal

CPT® acts as a kill switch between the hard-start and compressor in the event of a failed run capacitor; preventing damage and possible compressor failure.

Although AmRad capacitors have an extremely low failure rate, the CPT® has been introduced to ensure American consumers are always protected.

GREEN LABEL

- The One & only company featuring the green label.
- Exact MFD rating when created
- Automatic Test Table: Each Capacitor is placed through a automatic test table which performs a variety of tests to ensure the safety and quality.
- LCR Meter: Measures the capacitance of each of our capacitors, once the exact microfarad rating has been measured then the green label will print out and be ready to be placed on our capacitors
